**Susanne Pearce**

*In 2003 I did Jane Cocks Studio Art subject and, as a result, I was accepted to RMIT for a BA(Fine Art). Well 5 years later I have just found out that I have been awarded an RMIT Siemens Fine Art Postgraduate Scholarship- one of three across the Art School (and I have passed my MFA, and won an award for the MFA work as well)). Who would have believed it!. So i would like to thank you for getting me started on all of this and making my "retirement" more interesting and challenging than i would ever have expected.....Susanne Pearce*

## Some Student Comments 2008

"...thank you both very much for the great organisation and effort that went into making my New York experience so great. It was truly a wonderful trip and a real highlight in my life. It has certainly broadened my ideas about my art as well..."

Ruth McIntosh

"...Jane, you represent the best traits of an exemplary teacher... passion for spreading learning, a sound understanding of people, the ability to adapt to individuals and tailor your responses to their individual needs and skills and finally, a love of seeing students grow and achieve beyond their expectations."

Tony Hollway

"Just wanted to say thank you again for the time you take to invest in your students. I can't imagine my own practice could possibly have evolved this far this quickly without you both. It has been really satisfying and stretched me as a person too - which is a whole different level of appreciation. Way better than taking medication. :)"

Helen Mentha

"...Thank you so much for your kind thoughts and encouragement. I am both surprised and thrilled with my results... without your teaching, these results would not have been possible..."

Wendy Nicholson

"... Attending your classes has meant so much to me and I attribute my growth as an artist to your mentorship and encouragement..."

Janice Gobey

"...Another opening that might interest you (though it is VERY late notice) is at Red Gallery TONIGHT 6pm - 8pm. Julie Keating is a LaTrobe Street student (she swears by the courses she has done)..."

“...I can't comment on NMIT but I did go to LaTrobe College for one year (one night a week) back in 1999 and have known others who have gone there every year since 1998. I recommend it very highly. There are a great range of courses and single subjects available, terrific tutors and a sense of 'community' amongst the many people who attend. They also have a gallery that is used for student shows at least a few times a year.....They also have a very high success rate for students who want to go to university....”

“...I did a 'Studio Practice' course at LaTrobe and got a lot out of it. I also know others who have done other courses there and really enjoyed it. I recommend it very highly...”
